CMCC Doc. No. 151X5.767
Copy 1 of 2
Page 1 of 1

Dear Dan:

25X1

During [redacted] recent visit, he requested that we provide him calibration and sensitivity data for the System 4 equipment in graphical form at the earliest date possible. The material forwarded herewith provides such information for the system identified by Serial No. 102. We would appreciate your directing it to [redacted] attention immediately and explaining to him that these curves were prepared hurriedly from engineering notebook entries; we have made the assumption that he would rather have the information immediately in this form than to experience any delay in its receipt which would result if an attempt were made to present the information in "polished" form.

25X1

Sincerely,

Burt
